

LAKES GRAMMAR

AN ANGLICAN SCHOOL

Date: 14 August 2024

Dear parents and carers

Years 5-12 (2025) - Bring Your Own Device (BYOD)

Lakes Grammar is a Bring Your Own Device (BYOD) school where all students in Years 5-12 are required to have a device to support their learning each day.

Teachers will ask students to use their devices for a variety of learning activities. The preferred devices for students are Windows laptops or Apple MacBooks. The school request that iPads, Android devices or Chromebooks are not used. Many textbooks for Years 7-12 are available as eBooks so can be accessed online.

If you do not already have a device for your child, the school has arranged for special offers on devices at a reduced price through partnership with JB Hi-Fi. You can view and purchase these devices at discounted rates through the Home JB Hi-Fi Solutions BYOD portal <https://byod.jbhifi.education/> using the school code: **LAKESBYOD**. Please compare prices to ensure you are getting the best deal. There is no requirement that you purchase a device from JB Hi-Fi.

Available Device Options:

1. **Lenovo 500w Gen 4**

- **Display:** 12.2-inch Touch
- **Processor:** Intel Celeron N100
- **RAM:** 8GB
